Allowable Subject Matter

4. The following is an examiner's statement of reasons for allowance:
 - a. The prior art of record fails to anticipate or show in combination all the features of applicant's invention: Claim 1 recites a novel pressure-fluid operated percussion device for producing a stress pulse in a tool such that a pressure is maintained in a working pressure chamber above a transmission piston, wherein a pressure in a charging pressure chamber below the transmission piston, enables the transmission piston to be pushed towards the working pressure chamber against the pressure in said working pressure chamber, and wherein the pressure in the working pressure chamber remains substantially constant during operation

of the percussion device in combination with the other claimed elements of the device that are novel over the prior art of record.

b. Temple shows a closed circuit for feeding chambers above and below a transmission piston, wherein a drop of pressure occurs in the chamber above the piston during operation of the device.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
